RE: Scholarship Program for High School Graduates of the Class of 2023, those currently in college or those starting to college for the first time after being graduated from high school for some time who meet the requirements of this program who are residents of the Domain of Indiana.

The Knights of Pythias of Indiana restructured our educational assistance program in 2002 by now offering Pythians, their children, their spouses etc. an educational assistance program. \$1,000 annual scholarships are up for grabs with a **maximum of \$4,000.00 over four years** awarded to any one person during the course of the program. We certainly are looking forward to the applications coming in so that we will know how much interest this program will continue to generate and how to plan for the future as it continues to grow.

Please feel free to duplicate the form to give to interested qualified applicants. They are encouraged to computer scan the form or computer reproduce the form into a word document in order to expand the size of the answer areas. Please note...the application deadline of JANUARY 25, 2023! ALL entries MUST be postmarked on or before this date to be deemed eligible for the scholarships! No exceptions for ANY reason! Please make note that your TWO essays and the latest high school or college transcripts that you have **MUST** accompany the applications!
